

Holiday Inn Mart Plaza, Chicago, IL • 24 - 26 October 2002

## Building Green Health Care Agenda

Thursday, 24 October -- Pre-Conference Seminar - Sauquanash West

- 8:00 - 9:00      **Registration and Continental Breakfast**
- 9:00 - 9:15      **Welcome -- Tom Lent, Healthy Building Network**
- 9:15 - 10:45    **Green opportunities and priorities: design, impacts, and case studies**  
Introduce core elements of sustainable healthcare facility design. Why should healthcare providers be interested in this initiative? Overview of planning and design process, and outline of sustainable design strategies. Case studies will illustrate use of these strategies and results. Conclude with obstacles to sustainable design in healthcare and how to overcome them.
- Craig Applegath, OAA, FRAIC, AIA, Principal, Dunlop Architects Inc.
  - Jane Wigle, OAA, MRAIC, Associate Principal, Dunlop Architects Inc.
- 10:45 - 11:00    **Break**
- 11:00 - 12:30    **Healthy interiors**  
Assess how health problems relate to built environment. Potential interior problems include: asthma, health problems from mold, and sick building syndrome. How do we understand and deal with these potential risks as building professionals?
- Jan Stensland, Inside Matters
- 12:30 - 2:00     **Lunch**
- 2:00 - 3:30      **Life cycle of materials**  
Examine the environmental health and safety impacts of building materials at each stage in their life cycle. Highlight key materials, where design decisions can make an important impact on environmental health, and provide resources.
- Tom Lent, Healthy Building Network
- 3:30 - 4:00      **Break**
- 4:00 - 5:30      **Green energy for health care facilities**  
Apply green energy design principles to health care facilities. Why should health care facilities be interested in "greening" energy systems? What unique challenges do health care facilities face?
- Walter Vernon, IV, PE, AIA, Principal, Mazzetti & Associates
  - Jon A. Inman, PE, Mazzetti & Associates

---

### Fragrance-Free Event

Consistent with CleanMed's focus on healthy environments, green buildings and indoor air quality, we ask participants to refrain from wearing scented products, including perfume and cologne, while attending the conference.
