- Evening Activity  
5:30 - 6:00      **"Exporting Harm: The High-Tech Trashing of Asia"**  
This documentary was one of the first to reveal real human and environmental health costs to communities in China from the irresponsible export of e-waste by contractors in the US. This documentary highlights the role consumers play in transforming the market towards healthier materials and practices. (*produced by Basel Action Network and Silicon Valley Toxics Coalition, 23 minutes*):  
  
Ted Smith, Executive Director, Silicon Valley Toxics Coalition will introduce the documentary and will be available for questions after the viewing.
