

Harbor Hospital

Healthier You.

Healthier Environment.

Waste Management/Recycling Programs

Harbor Hospital is committed to providing outstanding health care and pledges to have a role in protecting Mother Earth. Harbor has four well received, hospital-wide recycling programs and always is looking to expand the hospital's recycling efforts.

STERILE BLUE WRAP/SALINE BOTTLE RECYCLING

- Captured in the OR and Special Procedures Lab
- Removes harmful products from waste stream

DISPOSAL OF LAMPS AND BULBS

- Part of a mercury reduction program
- Closed collection containers effectively house the lamps and bulbs and protects associates from harm between monthly pick ups

DISPOSAL OF PHARMACEUTICAL WASTE

- One of the first hospitals in Maryland to follow EPA guidelines
- Nurses trained annually regarding proper collection

BATTERY RECYCLING PROGRAM

- Capture 100 percent of medical grade rechargeable batteries
- Capture 100 percent of alkaline and lithium batteries
- Collection containers located in heavy use areas
